The Special Meeting was convened as a “board work session” to discuss and plan for the district. No action was taken at the meeting. The board worked with Dr. Donald Kachur, Professor Emeritus from Illinois State University in the area of Curriculum and Instruction, to develop working goals for the district.

The Board of Education looked at “goals” and “action items” in four areas. The areas discussed were Technology, Curriculum & Instruction, Facilities, and School & Community Relations. This working draft document will be brought to the March 19 Regular Board of Education Meeting for continued discussion and approval.
