Synchronous learning

Synchronous learning is remote learning where everyone from a given group is online at the same time using tools such as Zoom, Google Meet, and/or other technology.

Each student should have a synchronous session for each class on their schedule on Mondays, Wednesdays and Fridays.

Synchronous learning should be at least 15 minutes per class period.

What does synchronous learning look like:

- Checking in with students regarding their social emotional wellness, building community, and establishing personal connections.
- Engaging students in discussions to ensure understanding of information.
- Previewing or explaining assignments or expectations of learning tasks.
- Answering student questions about one of the recorded lessons.
- Conducting small group instruction.
- Modeling or sharing examples of final products.

Asynchronous learning

Asynchronous learning is remote learning where students access pre-recorded lessons or independent learning tasks at any time during the day.

Each class will have independent assignments on Tuesday and Thursdays.

Options for learning on this day include longer project-based activities, completion of unfinished work from the previous week, enrichment activities, daily assignments, videos, tests or service learning projects. Teachers can use third-party videos as long as they post an accompanying video that includes an intro, purpose, and guiding questions for the third-party video.

Examples of asynchronous learning:

- Viewing recorded instructional videos of lessons in the content area.
- Listening to read alouds and answering questions.
- Engaging in online discussion by reading and posting responses (i.e. via Schoology, Padlet, Flipgrid)
- Reading posted literary selections and responding.
- Responding to and collecting student work.
- Recordings of performances submitted by students.
- Completing independent learning tasks and assignments.
- Teachers will be available each day from 7:45 am - 3:00 pm

Expectations of Students:

- On Mondays, Wednesdays and Fridays, students are expected to virtually participate.
- Will engage independently with the assignments posted by their teachers on Tuesday and Thursdays.
